 Chhoti Kachahari, Rajgir, Bihar   +916206598597

EDUCATION

Patliputra University, Patna, Bihar   *Apr 2019 - Aug 2023*
Master of Computer Application   *Percentage: 79.15%*

Magadh University, Bodhgaya, Bihar   *July 2015 – Oct 2018*
Bachelor of Computer Application   *Percentage: 67. 20%*

TECHNICAL SKILLS

Programming:	**C, Core Java**
Software & Tools:	**Backend: JDBC, Servlet, Microservices, Spring Core, Spring Boot, SQL, MySQL**
	Frontend: HTML, CSS, JavaScript, Bootstrap, Tailwind
	Others: Data Structure and Algorithm, Git, GitHub, OS Fundamental, Networking Fundamental

PROJECTS

NaxTale Book Store App   **Link**
- Created a Java Spring app with Maven and H2 DB for flexible pagination of books and authors, including comments, ratings, and personalized book recommendations. Improved user experience with hover-based author details using Java, Maven, Spring Boot, Spring MVC, and H2 Database.

Location Service App   **Link**
- Built a location service project with CRUD capabilities for Admins and read-only access for Readers using Java, Spring Boot, Gradle, JDBC, and SQL.
- Empowered the Reader user to perform GET operations for retrieving location information.

Online Test   **Link**
- Built an interactive knowledge test platform, leveraging Java and Swing, to enhance user experience. Developed a user-friendly test interface using Java and Swing for the "Give the Test" mini-project, emphasizing knowledge enhancement.

Weather App   **Link**
- Created a responsive Weather App using Java, Spring Boot, and JavaScript, offering location-based weather data retrieval and city-specific searches. Leveraged OpenWeatherMap API for real-time weather updates.

TRAINING

Naresh I Technologies, Hyderabad   Feb *2023 – Present*
Course Name: Full Stack Java Developer
- Demonstrated proficiency in problem-solving techniques, effectively resolving intricate issues and data structure challenges.
- Attained expertise in Oracle, C language, Core Java, Adv. Java, and Front-end technologies to enhance overall skill set.

iNeuron.ai   Oct 2022 – May 2022
Course Name: Full Stack JavaScript Bootcamp 2.O
- Attained expertise in Front-end technologies like HTML, CSS, JavaScript, React JS, and Back-end technologies like Express JS, and Node JS to enhance overall skill set.

CERTIFICATION

- Getting Started as a Java Developer issued by **LinkedIn Learning**   **Link**
  In This Course I have learned **Java Algorithm, OOPs, Exception Handling, Data Structures, JDBC, Java Collections, Spring with Spring Boot.**
